

EXTRA NEWS UPDATE.

July 2022 (No. 7a/22)

Hello again to all readers – sooner than normal!

In our most recent News Update, which went out at the end of June, we mentioned that an unusual number of 'Early M.G.s' were suddenly on the market.

Within a few days of publishing that News Update, one of our members from Jersey made contact to say that he has decided to part with his M.G.

Chris Forster has owned his 18/80 Mk II 2-seater for 27 years, during which time the car has given sterling service.

Chris' car was an M.G. factory demonstrator, registered WL 9232 in 1930. The car will be sold with a large quantity of useful spares and a substantial history file, which includes an album of photos of a round the world trip in 1931.

This is a well known M.G. which appears in several books on the marque. *The Autocar* magazine of July 1933 carried an article entitled 'Around the world with a car'

which describes the 1931 adventure.

Chris invites offers around £75,000. Please contact Chris Forster 01534 722050 (Jersey)

Prior to the trip to France, the footboard in the Mk II 18/80 Saloon was too hot for Rita's feet, so:

From Keith Herkes –

Hi Chris,

Pics of the little footrest I made up to keep Rita's feet off the hot aluminium toe-board.

The bottom of the sides are chamfered and it just rests against the toe-board so is easily removable. I stuck some very thin foam rubber on the folded edges where it rests against the toe-board just to stop any vibration.

It worked a treat.
